SUMMARY

Computer Science undergraduate with a **design-and-development skill set**, seeking my first design internship. Comfortable owning a problem from **user research and information architecture** through to a **shipped, coded interface**.

EDUCATION

KL University Expected May 2027
Bachelor of Technology (Honours), Computer Science and Engineering — CGPA: 9.44 Hyderabad, Telangana

PROJECTS

CareerCraft March 2026
UX/UI Designer

- Restructured the information architecture and led a complete UX redesign across 9 platform modules — now used by 3,000+ students across all KL University campuses.

Vivaha June 2026 – Present
Product Designer & Full-Stack Developer

- Designed and built the Discover matching feed for a trust-network matrimonial app — trust-distance visualization, connector-path modal, shared avatar/header components, and a two-tier profile visibility model.

Git Analyser July 2026 – Present
UI Designer & Front-End Developer

- Redesigned the React frontend around GitHub's Primer design system, adding dark mode and fixing token-driven UI bugs (1,311+ lines, 30 files, open PR to main).

INDEPENDENT AUDITS

Usability & Accessibility Audit — CyArmorHub March 2026
Informally requested by the project team

- Conducted a 20-finding WCAG-referenced audit across information architecture, navigation, and forms; delivered as a structured report.

Usability & Accessibility Audit — SkaleChat July 2026
Informally requested by the project team

- Conducted a 33-finding WCAG-referenced audit surfacing blocking onboarding bugs and Legal & Compliance gaps; delivered as a structured report.

SKILLS

Design: Figma, Wireframing, Prototyping, Information Architecture, Design Systems

Development: HTML, CSS, JavaScript/TypeScript, React, React Native, Astro, Git

Other: WCAG/Accessibility Auditing, Usability Testing

CERTIFICATIONS

Google UX Design Professional Certificate — Google (Coursera), May 2026

Claude Code 101 — Anthropic, July 2026
